Loch Leven is a picturesque and historically famous lake in Kinross-shire, measuring about 3½ miles across by 2 miles long. A particularly interesting spot in the Castle Island (one of seven islets on the lake) on which is the fortress in which Mary Queen of Scots was imprisoned from June 1567 to May 1568, and from which she eventually escaped through the agency of the enamoured Douglas.

I have just been to this lovely old ruin, you would have enjoyed it. The row from the main land was very nice for there is a strong breeze & it was quite rough. I hope you had a good journey & found all well. How is Sophie? I will write again soon & will hope to see you about the 22nd Much — LTPA12.9
